Information Regarding Your Child's Physical Appointment Today

Today is your child's well child check-up (physical). We will be addressing routine topics of growth and development, nutrition, social and emotional health.

If you have additional concerns beyond the realm of a routine physical, we will do our best to address your child's most urgent needs. However, it may be necessary to reschedule your child's physical or schedule a follow-up visit to more thoroughly address your other concerns.

If we are able to address all your concerns today, we will be happy to do so; however, please be aware that your insurance company may charge you a copay or put the charge towards your deductible. Although, it may be more convenient for you to have us address all your child's issues at one visit, proper billing does require that we bill for the service we provide and many insurance plans require patients to pay a copay and/or deductible regardless of when the services are provided.

If you need to bring up issues that are either chronic in nature or if your child is sick when you bring them in, we have 2 options:

- 1.) We will complete both the physical and treat the medical issue at the same time. We will charge for both services and your insurance company will most likely require you to pay a copay and/or deductible amount.
- 2.) If the child is too sick or the chronic condition too significant to complete during the physical we will treat the medical issue and bring the child back for the physical.

Please indicate below other areas of specific concern you would like to discuss today.

Allergies Skin problems Bedwetting Asthma/wheezing Stomach or bowel

Headaches Weight concerns Sleeping Issues Chest pain Fainting

Ear pain Sinuses

Child's Legal Name _____ DOB _____

Parent/Legal Guardian Signature _____ Date _____
